\_\_\_\_\_

Any medication refills needed? \_\_\_\_\_

Please call me if my fee will be over \$\_\_\_\_\_. (If left blank, we will call if over \$100)

**Please check the services you would like performed to your Pet today:**

SERVICE	FEE	YES	NO
<b>Nail Trim</b>	\$12.00		
<b>Microchip</b>	\$22.00		
<b>Dental cleaning:</b> If it is determined your pet needs a dental cleaning because they have dental tartar while here for another surgery, would you like us to do this for an additional \$100?	←←		
<b>Full Mouth Dental Radiographs (while anesthetized)</b> *~75% of oral disease can be missed without dental radiographs	\$45		
<b>Blood testing:</b> Bloodwork is highly recommended prior to sedation or anesthesia. This alerts us to the presence of dehydration, anemia, systemic infection, diabetes and/or kidney or liver disease that could complicate the procedure. These conditions may not be detected <b>without</b> a pre-anesthetic profile thus not allowing for the most appropriate and safest anesthetic or sedative regime to be administered. These tests are similar to those your own physician would run if you were to undergo anesthesia. In addition, these tests may be useful if your pet's health changes to develop faster, more accurate diagnoses and treatments.	\$100-115 (included with cost of \$210 dental cleaning)		
<b>Urinalysis:</b> screens for urinary tract infections, urinary crystals, dilute urine or protein loss which could indicate a systemic illness, and glucose in the urine. This compliments bloodwork in attaining a good overall picture of your pet's health.	\$60		
<b>Thyroid Screen</b> (total T4) added to bloodwork (for adult pets only, 2-3 business days for results)	\$20 (normally \$38)		
<b>Anal gland expression</b> is recommended for pets that are licking, chewing, or scooting their rear end or if they have had previous problems with their anal glands. Does your pet need anal gland expression today?	\$20		
<b>Ear cleaning</b> (price may vary depending on severity of ear infection)	\$18.00 (mild)		
<b>Ear hair removal</b>	\$15		

If you pet is not picked up by the end of the day that he or she is dropped off, boarding charges will apply. After 2 days of attempting to contact you and all authorized contacts on file and not receiving any response, your pet will be considered abandoned and will be relinquished to Pinellas County Animal Services.

I understand that Harborside Animal Hospital does not have any staff attending to pets during nights and weekends and therefore if I do not pick up my pet by closing time, I could be placing my pet in danger if he or she is sick. I agree to hold harmless Harborside Animal Hospital and its employees if any harm comes to my pet because I do not pick up my sick pet before closing time.
